## Migrate from IBM Domino to Microsoft Exchange and Office 365 successfully

### The platform matters

There's one topic at the top of the agenda for many businesses right now: How best to modernise the existing email environment. The focus is on moving from IBM Domino to Microsoft Exchange or Office 365. The email experts at GBS will support you with your project!

From analysing the existing infrastructure, assisting with license management and ultimately to the actual migration of iQ.Suite and mail servers, GBS is at your side with in-depth know-how. Rely on GBS's knowledge of best practices and the extensive experience acquired in countless projects.

### A single source

Migrating successfully from IBM Notes/Domino to Microsoft Exchange or Office 365 means having all the right tools and an expert's knowledge at your fingertips. GBS provides you with the ideal combination of solution know-how and experience.

Analysing existing email infrastructure is the first step. The resulting recommendations build the basis for a trouble-free migration. Thanks to iQ.Suite's multi-platform capability, converting from IBM Notes/Domino to Microsoft Exchange is a trouble-free undertaking. Should you opt for Office 365, you'll have the choice between cloud or hybrid operation. Our email experts will help you to transfer the configuration and corresponding email rules to the Microsoft world. A matter of course for GBS: The new installation and subsequent transition to productive operation are tested extensively.

# iQ.Suite Easy Move

Platform change made easy

## Benefits

- Comprehensive solution know-how and services from a single source
- Consideration of individual messaging environments
- Seamless migration of email environment and infrastructure
- Trouble-free coexistence of IBM Domino applications and Microsoft Exchange
- Cost reduction with intelligent license management

## About GBS

*GBS is a leading provider of solutions and services for the Microsoft and IBM collaboration platform.*

*More than 5,000 customers and 4 million users worldwide trust in the expertise of GBS.*

## A smooth move – from start to finish

Our Microsoft specialists not only carry out the iQ.Suite move itself, they take on the underlying server infrastructure as well. The IBM Domino messaging environment is transferred to the Microsoft Exchange world and the migration encompasses calendars, tasks and personal contacts in addition to the mailboxes. Meaning that all data is retained and uninterrupted operation in the new environment is ensured.

In order to get the most out of your new environment, we recommend subsequent instruction and training in the new technologies. Our Microsoft experts will convey the background knowledge about Microsoft Exchange and Office 365 and show you how to implement secure email management in the Microsoft world

## Minimise licensing costs

Managing IBM and Microsoft licenses is a complex subject. Particularly when changing platforms, the challenge is to avoid over, under or double licensing. Sound advice is absolutely essential.

GBS's experience and assistance will simplify the process. Let us analyse your current licensing model, support you in implementing your new environment, make the conversion as smooth as possible and keep licensing expenses to a minimum.
